### **Overview**

The Academy Committee is designed to allow Academy Committee Members to focus on the key priorities for each school, including Progress, Learning and Achievement, Safeguarding, SEND, Well-Being, Stakeholder engagement, Leadership and so on. Many policy decisions are now centralised at the Trust Board level and the Academy Committee will only approve policies that are specific to the academy (as listed in the PolyMAT Governance Handbook). Academy Committees have been created in order to:

- Remove much administrative and compliance duties which can detract from a focus on learning and achievement – these would sit with the Trust Board whenever possible.
- Promote more active involvement in creating agendas, scrutinising evidence and judging standards – all of which will allow better support of school leaders and more focused holding to account.
- Promote more active involvement in visiting the school, meeting leaders and other staff, speaking with students and parents – this will help triangulation and monitoring and give ACMs a real insight into the successes and needs of each academy.
- Allow the collation and sharing of best practice between academies via the Deep Dive Forum.
- Promote regular communication with the Trust Board about successes and areas for improvement.

### **Triangulation**

The work of the Academy Committee should be supported by regular visits to the academy to triangulate evidence and provide further support and challenge to academy leaders. ACM's may also be required to undertake Link Roles with responsibility for overseeing a specific aspect of the work of the school.

## **Terms of Reference**
